Communication from the Mayor

Dear Grimaudois, Dear Grimaudois,

As you know our territory is prone to flooding and forest fires, as we unfortunately deplored during the summer of 2021. Public safety is a collective commitment.

The municipality has been equipped for several years now with a TeleAlert system which aims to warn you of all events that could affect you closely such as floods, forest fires or any risks related to public safety. I insist on the effectiveness of this solution which is essentially based on the geolocation of your home or commercial structure.

This registration only takes a few minutes, but will allow you to be informed and alerted in the event of a major risk in the municipality.

Alain BENEDETTO, Mayor of Grimaud

WHAT IS THE REMOTE ALERT?

The development of this communication tool is the only way to keep you informed, in real time, of a risky situation, and to send you safety instructions.

In a few minutes, this free service warns by telephone or SMS, all persons residing or exercising an activity in the municipality and allowing each of them to put themselves out of danger.

HOW DOES THIS SERVICE ACTUALLY WORK?

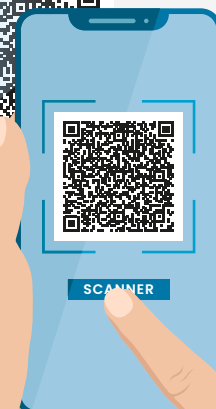

The « Gedicom » remote alert allows the various actors of the municipality to alert you in the event of major risks in your sector. The security instructions are given with regard to a pre-analysis carried out by our observers, to provide you with clear, precise and up-to-date information. The instructions are issued either to the whole city, or to a district, or a group of people subject to a particular danger. When you are contacted by telephone, you must confirm that the message has been taken into account. If you have not picked up, the system will call all your numbers stored in the database or leave a message on your answering machine.

HOW TO REGISTER?

Each registration is assimilated to a household, in which you will have the possibility of entering up to 7 telephone numbers, including that of your children if necessary.

YOU HAVE TWO
REGISTRATION OPTIONS:

- On the internet, by going to the town's page (www.mairie-grimaud.fr). Simply enter « GEDICOM » in the search bar, which will return you to the registration link.
- By form that should be returned, by post or by email to the Municipal Police of Grimaud (policemunicipale@mairie-grimaud.fr)

TELE-ALERT
